ANNUAL REPORT  
OF THE TOWN OF  
**HENNIKER**  
NEW HAMPSHIRE

FOR THE YEAR ENDING DECEMBER 31, 1963

At a legal meeting held July 20, 1752, by the grantees of No. 6, now Henniker, a committee was appointed to lay out the town with the aid of a surveyor. The party, consisting of Mathew Patten, surveyor, Capt. Andrew Todd, Capt. Samuel Barr, James Willson, David Archibald, and Alexander Todd, set out on the survey Sept. 20, 1752. Beginning their work at the south east corner of No. 6, they reached the north east corner, being a white oak tree, Sept. 24, 1752. This tree is the one pictured on the cover of this report, and is known as The Bound Tree, marking the north east corner of Henniker, the north west corner of Hopkinton, and the Warner town line.

This information was obtained from the History of Henniker. We wish to thank Mrs. Duane Sanborn of Henniker for the picture.

## REPORT OF THE FOREST FIRE WARDEN AND YOUR DISTRICT CHIEF

During the past year New Hampshire faced the greatest forest fire threat to its woodlands in more than sixty years. The continued drought brought home to our citizens, as never before, the potential threat of destructive fires to their beautiful and valuable forests, homes and livelihood. In true American tradition of meeting a common threat by volunteer effort, this fire danger was minimized by active prevention, patrol and a relinquishing of personal rights for the common good. It was the greatest demonstration of public cooperation ever experienced by those responsible for local and state fire control. The ready forces of volunteer fire services kept the losses low. For their effort and public response the general fire service expresses its heartfelt thanks for a job well done.

Prevention however, is not just an activity for the bad fire years. It must be practiced until it becomes a part of our public conscience—a habit. Just plain carelessness with fire causes too many of our fires.

The following practices and suggestions will help:

1. Always have a permit for outdoor burning and burn within the terms of the permit and in a safe place. Burn late in the afternoon when the wind is down or on rainy or damp days. Check your fire and if winds develop extinguish it promptly.
2. Carry your rubbish to the public dump—its safer. A neglected backyard incinerator causes many fires.
3. Never discard lighted cigarette or match. Make this a year round habit regardless of the safety of your surroundings.

4. Children caused fires are now a major concern. Keep matches away from them and teach them to respect fire and not make it a subject of play.

Let's all join with "Smokey the Bear" and "Keep New Hampshire Green" and growing in 1964.

## DEPARTMENT OF POLICE

The activities of this department increased during the past year. Accidents, crime, juvenile cases and complaints of all natures were investigated, and arrests made.

Through the act of the 1963 Legislature, Henniker became the district court for the towns of Warner, Bradford, Newbury, Sutton and Henniker. Therefore, we do not have the expense of time and travel for court.

The major item asked for in the budget is \$1,000 for Police 2-way radios. This would be a step forward in making the department more efficient, whereby, it would enable Police Officers to have contact when needed.

The members of the Police Department wish to express their thanks and appreciation to those who rendered their services during the past year.

# REPORT OF THE PUBLIC HEALTH AND SCHOOL NURSE

Health Services from January 1, 1963 through

December 31, 1963

General Visiting Service

1994 visits to give bedside care, injections, dressings, prenatal, newborn, instructive, friendly and follow-up.

15 Patients taken to Doctors in town and Concord.

Assisted at four (4) blood drawings, two (2) at Hillsboro and two (2) in town.

I had four (4) Sabin oral Vaccine Clinics this year. Results are as follows:

1.—1-14-63—Type II	
Preschool and infants	77 doses
Adults and children 6 yrs. and over	375 doses
	<hr/>
Total	452 doses
2.—3-4-63—Type I	
Preschool and infants	44 doses
Adults and children 6 yrs. and over	375 doses
	<hr/>
Total	452 doses
3.—4-16-63—Type III	
School children 6 years and over	88 doses
Adults and preschool	182 doses
	<hr/>
Total	270 doses
4.—5-27-63—Type II	
School children 6 years and over	87 doses
Adults and preschool	146 doses
	<hr/>
Total	233 doses

In 1962 when we held our first Clinics, we had to buy Vaccine, as the State Board of Health could not furnish it for us. We needed someone to sponsor the program and to buy vaccine, cups, etc. Norman Parmenter kindly offered to do so. A fee of 25 cents was charged for each dose so we could reimburse him. People sometimes will ask, what becomes of the money from the clinics? At this time I would like to give a financial report of those clinics.

Paid Outs:

**1963 REPORT OF THE  
HENNIKER PARK DEPARTMENT**

Merle Patenaude, Chairman

Harry Hatch, Selectman

Gladys A. Weeden, Treas.

Several important items were taken care of during the 1963 season on the Henniker Park Department, in addition to the routine chores.

It was decided to develop a Soccer Field on the site of the old Baseball Field, this was done in conjunction with the approval of the School Committee and Mr. Gladu, Principal of the High School. There is still a balance of \$673.42 available as of January, 1964, for further improvements as required.

Two Azaleas were planted at the entrance of the Azalea Park and twenty-seven young Rhododendrons were planted along the path toward the river. These young shrubs required constant attendance and Mr. Merle Patenaude, not only planted them but gave a lot of his time to caring and watering them. The picnic tables did not get much use last summer and we may decide to place them at the southern end of Woodman Park during the 1964 season. Our committee may decide to make the existing sign at the entrance more attractive by adding some wrought iron scroll work, some preliminary investigation shows that for \$50.00 to \$75.00 something good could be worked out.

The sign at the Community Park, an eyesore for a long period, was restored and will be much easier to maintain, requiring only a touch-up of paint every two or three years, depending on the weathering. The trees at this park and Woodman Park were fertilized and some new trees were planted to replace old ones that had to be removed. The War Memorial was further beautified by the addition of two

Rhododendrons and the Yew Shrubs planted in 1962 are doing well. The "vigil" light was operated throughout the year and at Memorial Day, plants were set out in front of the memorial and in the Preston Memorial at the southern end of Woodman Park. The benches were placed in Community Park and the path lighted at night.

At the Annual Town Meeting, it was voted to raise \$200.00 to clear the deficit in the General Park Fund. Although we are entering the new season with a deficit of \$17.30, we do not anticipate the extraordinary expenses we have had recently and hope that we can stay within our income during the 1964 season.

**REPORT OF**  
**TRUSTEES OF TOWN TRUST FUNDS**

The trustees would like to bring to the attention of the people of the town of Henniker and any others interested in our young people, the benefits derived from leaving a Memorial Scholarship Fund in his or her name, or the name of a friend.

In 1952 the late Max Israel left the sum of \$3,000.00 for the establishment of such a fund in his name. This amounted to about \$2,800.00 after taxes. The annual income from this fund is now about \$175.00, or about 6% as you may see in the town report. Each year at graduation some deserving boy or girl is awarded this scholarship, which is not a loan, but a gift towards his future education.

In many cases this gift may be the deciding factor in a student's planning whether or not to continue his education. What better memorial could one hope to give to perpetuate the name of himself or a loved one?

**STATE OF NEW HAMPSHIRE**  
**SCHOOL WARRANT**

To the Inhabitants of the School District in the town of Henniker qualified to vote in district affairs:

You are hereby notified to meet at the Cogswell School Auditorium in said district on the 10th day of March 1964 at 9:00 A.M. to act upon the following subjects:

Polls open at 9:00 A.M. and close at 8:00 P.M.  
Articles in Warrant will be taken up at 7:00 P.M.

1. To choose all necessary officers for the ensuing year.
2. To hear reports of Agents, Auditors, Committees and Officers chosen and take action relating thereto.
3. To choose Agents, Auditors, and Committees in relation to any subject in this warrant.
4. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officers and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income: the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.
5. To see if the district will vote to employ a full time Physical Education teacher.
6. To see if the district will authorize the school board to make application for and receive in the name of the district,

## SUPERINTEDENT REPORT

There have been various changes in the High School staff this past fall. Mr. John Wood Jr. is the new teacher in Shop; Mr. Eugene Serfass the new Science teacher; Miss Nancy Lake the new Commercial teacher; Mrs. Marion Shay the new Mathematics teacher; Mrs. Elizabeth Lovejoy the new Art teacher and Mrs. Barbara Wilson the new Music teacher for both the high school and the grade school. It would appear at this point almost half way through the school year of 1963-1964 that we have been most fortunate in keeping the teachers we have and in the new ones that we secured. They are a very strong staff and I hope we will be able to keep them with us for some time to come.

Unfortunately the supply of teachers does not increase with the years to any great extent and the number of pupils is growing rapidly which further accentuates the grave shortage of teachers. We need to convince more of our capable high school youngsters to train for the teaching profession. With the population explosion taking place in this country there will be plenty of opportunity for employment. Certainly the satisfaction of working with young people makes teaching a very worth while occupation.

I am sure that most of you are familiar with the fact that the Interim Commission Report set up a plan for an area high school in Henniker of six hundred pupils, but they didn't say how they were going to convince Hillsborough and Hopkinton to close schools that have over three hundred pupils in them and send over four hundred high school pupils from these towns to Henniker, to say nothing of Antrim and Warner. Nor did they say too well how Henniker was going to be able to build a building for six hundred to a thousand pupils. The only way this will ever be done is to make it financially attractive for the towns to accept this idea. This the Legislature did not do. I feel quite sure until real financial aid is given the idea of an area school in Henniker will continue to

be just an idea. At the same time I don't see how any substantial financial aid can be given school districts until the whole tax structure of the State of New Hampshire is revised, and this no one seems willing to do. We go along in the same old way with sin taxes paying the way for the state and the property owners carrying the big burden.

One thing of which we all agree, I am sure, is the increasing need for education in this rapidly changing world. There is less and less demand for workers who are unskilled, and national statistics indicate that the large percentage of these workers unemployed are the unskilled workers. This is the reason that the need for a high school education and training beyond that is becoming more necessary every year. Every parent should encourage his children to get the best training possible if he is to take his proper place in the world of tomorrow.

## REPORT OF THE HIGH SCHOOL PRINCIPAL

To the Citizens of Henniker:

This year, the principal's report will concern itself with a discussion of the importance of physical education programs in the high and elementary schools. We will all miss Mr. Hugh Conner on his retirement at the end of the school year. His work has been a valuable adjunct to the curriculum of both schools. His leaving will leave a gap which must be filled.

Any modern philosophy of education includes a statement concerning the outcomes desired in an educational system. Such a statement would say, "we seek to develop the minds, the bodies and the hearts of our children in order that they can lead wholesome lives, be effective citizens and use their leisure time wisely."

Leander Cogswell in providing sufficient funds for the High School gymnasium certainly had in mind the development of the bodies as well as the minds of the Henniker school children. True, the beautiful gymnasium serves the community as a meeting place, the school as a center for social activities and programs requiring a large space for audiences. I do not believe that Mr. Cogswell had in mind solely basketball games, social activities and an occasional civic meeting.

Henniker has moved forward during the past year. The students have available to them, a greater variety of courses and activities to meet their individual needs. Modern school practices are designed to meet the individual needs of the students. For these reasons, we cannot allow our educational program to stand still or to go backwards, because once it assumes either of these postures it begins to fail in achieving its proper function. Since the body of knowledge increases year by year, since our knowledge of how and what we should

teach in our schools increases yearly, we must adapt, change, and modify in order to provide our children with what they must have.

Most of the adults in our community can remember that in order to go to school in the twenties and thirties, it was necessary to walk. We all performed chores and many of us had odd jobs which provided us with exercise and sometimes a little spending money. This type of living is now a thing of the past and the past is in the history books. We must all face the fact that today's children for the most part, ride to school, watch television by the hour, and because of the pressure of increased emphasis on studies spend many hours in the sitting or lying position. Our late president made much import of the fact that our country's youth were becoming soft, fat, and incapable of any great degree of physical exertion. About half of today's draftees fail to pass the physical examinations required for induction. It was not unusual for draftees to lose as much as thirty pounds during the first eight weeks of their military training.

The mind that we seek to educate is unfortunately wedded to the body of the student. If the body is in poor condition, if it has poor muscle tone, if it is weak and sluggish, then the mind will be similar in quality. These facts have been borne out in many scientific investigations.

The increasing use of tobacco and alcohol has resulted because young people have never regarded their bodies in the proper perspective. If there is not enough importance placed on the value of good health, strong bodies and prevention of disease, then this trend will most likely continue upwards. We must teach our children how to use their bodies, how to develop them properly and how to care for themselves.

The Commission on Minimum Standards for High Schools in New Hampshire recommends strongly that "Physical education should be offered at least two periods a week throughout the four year high school program. It is not intended that the normal programs of interscholastic or intramural athletics be considered as a substitute for a planned program of physical education." Our own present program of athletics

takes in approximately 39 students out of 151 in the high school. This leaves 112 students out of physical training should we fail to replace our physical education teacher next year. What we really need, is a program that will give *all* our students a chance to participate in body building programs and health education.

Our elementary school youngsters are in even greater need for this type of activity. The old saying, "as the twig grows, so is it bent" applies very well here. Physical education has been an integral part of school life for these youngsters for many years and they are accustomed to this activity.

The teacher colleges and the universities are producing a fine group of qualified physical education teachers. The type of person that would take over the physical education department should be well versed in all the sciences of his field. True, such a teacher would impose an additional burden on the taxpayers for some \$3,900, but when you consider that this represents but \$13 per school child per year and less than a 1% increase in the school budget, then the cost does not seem prohibitive for value received. We all certainly spend more than this on medical expenses and recreational luxuries. In many ways, a sound program of physical education is a good investment.

In conducting a poll recently among the parents of the school children, we find an overwhelming approval of a plan that would provide for physical education instruction both in the elementary school and all of the high school classes.

With such a mandate from the parents, it certainly appears that we ought to continue to provide this type of instruction in the schools.

The past year has been an exciting and rewarding experience for me. It is a great pleasure to work in a community where people appreciate the value of a good education for their children and where there is cooperation with the school authorities. Thank you all.

Respectfully submitted,

THEODORE E. GLADU,

*Principal*

## SCHOOL LUNCH PROGRAM

The School Lunch Program was in operation from Sept .17, 1962 to May 17, 1963. During this time there was a total of 26,008 lunches served, of which 104 were free, 194 adults, with a daily average of 168.

This year we were able to replace the government surplus steel trays with plastic trays and dishes. These were gladly received by the students. Also two plastic top tables were purchased for the dining room.

My thanks to those who donated their surplus garden vegetables to the program last fall as they not only helped our budget but added variety to our menu.

A sincere thanks to the teachers for their fine cooperation and especially the Grammar school teachers who give so much of their time helping to make this program a success.

Respectfully submitted,

ERCEL STERLING,
